PROFESSIONAL SUMMARY

PHP Developer with 1.5+ years of hands-on experience building ERP, billing and e-commerce web applications using PHP, CodeIgniter, MySQL, JavaScript, jQuery and REST APIs. Delivered live client projects end to end, from requirements to deployment on cPanel and CyberPanel servers. Strong in GST billing logic, invoice and ledger modules, SQL query optimization and API integration. Currently learning Laravel.

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: CodeIgniter, Bootstrap, jQuery, AJAX, DataTables (server-side); Laravel (learning)

Database: MySQL - schema design, joins, query optimization, report generation

APIs & Tools: REST API development and integration, Postman, Git, GitHub, VS Code

Server & Deployment: cPanel, CyberPanel, application deployment, MySQL database creation and maintenance, production issue support

Concepts: MVC Architecture, CRUD Operations, GST Billing, Inventory Management, Ledger and Accounting Flow

PROFESSIONAL EXPERIENCE

PHP Developer - Freelance / Contract

Aug 2026 - Present

Earthmovers Management System (Live Client Project), Tamil Nadu

- Working directly with the client to complete and maintain the system: Trip Management, Day Booking, Invoice, Vehicle Master, real-time stock tracking and billing.
- Gather requirements through daily client discussions; handle new features, bug fixes and deployment on CyberPanel.

PHP Developer

Jan 2025 - Jul 2026

iDreamDevelopers, Coimbatore

- Developed and maintained CodeIgniter-based ERP and billing applications with CRUD modules for customers, suppliers, invoices, purchases and stock inventory.
- Implemented GST billing with intra-state and inter-state tax logic, automated reports, party ledger and statements with running balance and payment tracking.
- Built REST API endpoints (tested with Postman) for third-party integrations; optimized MySQL queries to reduce page load times.
- Integrated server-side DataTables for large datasets; built salary reports, custom invoice numbering and item autocomplete with live stock updates.
- Customized the ERP product for individual clients and provided production support on live projects.
- Delivered complete client websites independently, including admin panels and front-end pages.

KEY PROJECTS

- Earthmovers Management System (Live) - Trip Management, Day Booking, Invoice, Vehicle Master, stock tracking and billing; developed and maintained for 1+ year.
- Flower Shop ERP (Freelance) - Complete ERP with Invoice, Purchase, Voucher and UPI/Cash payment tracking; handled requirements, development and server deployment.
- Musak Pumps (Client Website + Admin) - Built the full admin panel (masters, products, email, settings) controlling dynamic website pages, and the client-facing UI, end to end.
- Jewellery Shop E-commerce - Rebuilt and extended the project: jQuery-based cart with offcanvas panel, checkout, and order-to-delivery management in admin.
- Temple Management System - Income and expense tracking with reports; delivered to the client and running live.
- ERP Management System (Team) - Sales, Purchase, Inventory, GST Billing, Ledger, Reports, Dashboard and APIs.

EDUCATION

Bachelor's Degree - Alagappa University, Tamil Nadu, India

Score: 72%
